Subject: Plan amendment request for disaster recovery comment
Date: Saturday, September 6, 2025 10:41:34 AM

To appointed Columbia River Gorge Commissioners:

Ray Segale & I have suffered a total loss of our property in Tooley Terrace in the Rowena fire on June 11, 2025.

This is devastating for us. We have enjoyed windsurfing, biking, hiking, and SUPing in the gorge for over 35 years. The community of friends in Tooley are a joy! Now, some will be able to rebuild, and some will not.

Tooley Terrace has existed since the 60's. Our 1961 Spartan-10x50 trailer was our bliss! The views are fantastic!

Our plan is to hopefully afford a replacement of some kind. We won't have 500 sf, but something. We are now 74, so our ability to work on something is limited. In other words, we need all the help we can get.

We can get a smaller unit with Fiber Cement siding and a metal roof that will retard burning. Unfortunately, so many trees that were mapped on our permit 35 years ago, have burned. But, Tooley will come back green in the spring! We are hoping that by following guidelines as best we can, we will again spend time at our gorge place.

We so appreciate all the Gorge Commission has done to preserve a wonderful place.

Thank you for your attention to all our difficult situations. It has been beyond traumatic for us.

Nancy Richter & Ray Segale
